August 18, 2009

Dear Parent,

The school district is implementing a pre-paid plan for lunch service at Sand Point School this year using punch cards for students not receiving free lunch. Cards are available for sale at the school office for ten or twenty meals, and the prices are the same as last year: \$3.50 full price, and \$.40 reduced. The cards will be held by the lunch monitor, and parents will receive a call or notice to remind them when their student's card is nearly used up.

As always, please complete the Free and Reduced application if you think your family may qualify. Feel free to call or visit the school if you'd like assistance with the application.

If your child has an outstanding lunch balance from last year, regular meal service will not be provided, so please be sure to pay off your balance if necessary and purchase a punch card before the first day of school. Otherwise, you should prepare a lunch for your child to take with him/her. Please call the school or district office if you have any questions.

Yours truly,

Jeanne Perkins
Principal
